MOHIT KUMAR OJHA

| +91-7296052960 | ojhamohit108@gmail.com | LinkedIn | GitHub | Portfolio |

SKILLS:

Analytical Tools: Advance Excel/Google-Sheet, Power BI, Tableau, Microsoft Power Point Presentations.

Programming Languages: Python, SQL.

Database Management: MySQL, PostgreSQL.

Other Skills: Microsoft Office, Jupyter Notebook, Visual Studio Code, ChatGpt, Canva, Data Cleaning, Data Visualization.

Soft Skills: Analytical Thinking, Project Management, Problem Solving, Teamwork, Communication.

WORK EXPERIENCE:

Data Analyst Internship [Unified Mentor] Certificate: -

Sep 2024 - Oct 2024

- Analyzed and processed 1,000+ data points from multiple sources, creating detailed reports by the help of (Power-Bi, Tableau and Python) that contributed to improving business decision-making by 20%.
- **Utilized SQL, ETL Tools and Excel to clean and manipulate datasets,** developed dashboards to track key performance metrics, **reducing reporting time by 30%.**

Computer Trainer [Greet-India (Gifts) Foundation]

May 2022 - Feb 2025

• Taught Advanced Excel, MS Office, Tally, Taxation, and GST to 150+ students per years, consistently achieving a 90% student satisfaction rate through engaging lessons and hands-on training.

PROJECT EXPERIENCE:

Maven E-Commerce Market Analysis [Power BI | Power Query | DAX | Excel] | Live Dashboard |

Mar 2025

- Developed an interactive Power BI dashboard for sales performance analysis, tracking **18,325** transactions across multiple regions and Country, improving data-driven decision-making by **15%**.
- Analyzed revenue, profit, return trends, geographic sales distribution, brand performance, and weekly revenue trends, using Power BI and Excel, identifying key growth opportunities that increased profitability by 12%.

Ola Ride Bookings Report Analysis [Power BI | Power Query | SQL | DAX | Excel] | <u>Live Dashboard</u> | Feb 2025

- Processed and analyzed 20,407 ride bookings using Power BI and Excel, identifying cancellation trends and
 optimizing revenue streams, improving operational insights by 25%.
- Developed interactive dashboards to visualize booking success rates, ride distances, and payment trends, increasing
 reporting efficiency by 30% and identified key reasons for ride cancellations.

Music Store Database Project [MySQL | Excel] | Presentations |

Dec 2024

- Performed data analysis on a Music Store database using MySQL and Excel to extract insights on sales trends, customer preferences, and inventory performance.
- Optimized SQL queries, resulting in a 20% reduction in query execution time and improved data retrieval accuracy.
- Analyzed over 10,000+ sales transactions, identifying key patterns that led to a 25% increase in inventory turnover and more targeted marketing strategies.

HR Attrition Report Analysis [Power BI | Power Query | DAX | Excel] | Live Dashboard |

Dec 2024

- Processed and analyzed HR attrition data for **1,471** employees using **Power BI and Excel**, enhancing data accuracy by **30%** and uncovering key trends.
- Developed interactive dashboards in Power BI to visualize metrics like age distribution, employee count, attrition rates, job roles, and compensation, improving HR decision-making by 10%.
- Generated actionable recommendations from data analysis, leading to strategic changes that boosted employee retention by 10% and overall satisfaction by 12%.
